

Just For Girls

Make-up: Make-up should look natural and not overdone. Eye shadow and lip color are always a great touch. For black and white sessions more make-up than normal helps the overall look. Remember to bring your make-up for touch ups.

Clothing: Clothes should be ironed and ready to go. Bring a mix of casual and dressy attires for a nice variety.

Nails: If you paint your nails, fresh polish looks best. Careful, bright colors can distract the eye.

Hair: Wear your hair in a style you are comfortable with. Avoid getting your haircut too close to your session to insure it is exactly how you want it. Any hair changes during or in between the sessions should be quick and simple to allow as much camera time as possible.

Just For Guys

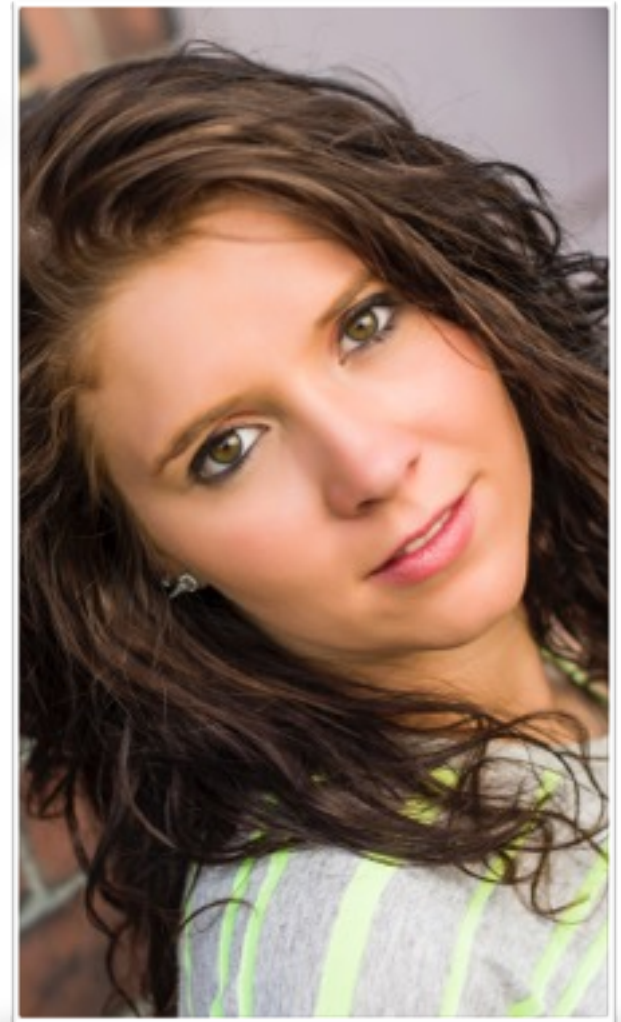

Clothing: Choose comfortable clothing and try to avoid bright stripes, large logos, or anything that can become a distraction. Bring a variety of colors and styles, some dressy and some casual.

Shaving: A fresh shave is a must. If you wear a beard or mustache, make sure it's neatly trimmed.

Hair: Haircuts should be done at least one week before your session. Avoid drastic changes to your everyday haircut to insure you will look great.
